

DIVYA V

MERN STACK DEVELOPER

Vellore | divyavdivya576@gmail.com | 9390662377 | [linkedin.com/in/divya-v-bb186a263](https://www.linkedin.com/in/divya-v-bb186a263) | github.com/divyavdivya576/HTML

PROFILE SUMMARY

Motivated MERN Stack Developer with hands-on experience in building responsive full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing REST APIs, integrating frontend and backend, and creating responsive user interfaces. Passionate about solving real-world problems through scalable web applications and eager to contribute as a Full Stack Developer.

TECHNICAL SKILLS

Programming Languages: Java, Python

Web Technologies: HTML, CSS, JavaScript, React.js

Tools & Technologies: Git, GitHub, VS Code

Database: MongoDB, MySQL

Technical Concepts: SpringBoot, Bootstrap, CRUD Operations, REST API, Database Management, Object-Oriented Programming

EDUCATION

RMK Engineering College 2022-2026

B.Tech in Computer Science and Business Systems | CGPA: 7.96

St. Joseph's Hr Sec School 2019-2021

HSC Percentage: 84%

Govt Girls Hr Sec School 2016-2019

SSLC Percentage: 76%

PROJECTS

An Integrated Platform for Land Rental and Agricultural Collaboration May 2025

Built a platform connecting landowners and renters to enable efficient agricultural land leasing. Integrated real-time data such as soil moisture, pH levels, and weather conditions to support informed farming decisions. The system enhances land utilization and transparency by providing live insights. It helps users select suitable land based on environmental conditions, improving productivity and reducing risks.

Technologies Used: React.js, Node.js, Express.js, MongoDB, HTML, CSS, JavaScript, Git, GitHub

Secure Cloud Storage Using AES Encryption April 2025

Enhanced a secure cloud-based system for storing and retrieving files using AES encryption. Files are encrypted before upload, ensuring data confidentiality even in cloud environments. Implemented role-based access control where users can search files using keywords and request access. The data owner authorizes access by sharing the decryption key only with approved users, ensuring secure and controlled data sharing.

Technologies Used: Java, AES Encryption, MySQL, HTML, CSS, JavaScript

INTERNSHIPS

Virtual Tech Services - Chennai 01.06.2024 - 16.06.2024

Domain: Web Development Intern

- Improved frontend components using HTML, CSS, and JavaScript for a farmer-based shopping platform.
- Created responsive web pages to provide a better user experience across different devices.
- Assisted in improving website performance and navigation.
- Supported project development by working with the team on assigned tasks.
- Enhanced practical web development skills through hands-on project experience.

Dr. Reddy's Foundation (GrowTech) - Bangalore June-August 2026

Domain: Full Stack Developer Intern

- Developed responsive user interfaces using React.js, HTML, CSS, and JavaScript.
- Built backend features using Node.js, Express.js, and MongoDB.
- Integrated frontend pages with RESTful APIs for smooth data communication.
- Contributed to the development of a MERN Stack agricultural land rental platform.
- Used Git and GitHub for version control and participated in testing and debugging.

ACHIEVEMENTS

Human Computer Interaction | NPTEL -Elite+Silver

Learned strong knowledge in UI design, usability, and interaction models

Introduction to Artificial Intelligence | Infosys Springboard

Acquired foundational knowledge of Artificial Intelligence concepts, machine learning principles, and real-world AI applications.

Database Management Systems(DBMS) | Infosys Springboard

Gained expertise in SQL, database design, normalization, and relational database management.

Cloud Computing | Udemy

Completed a Cloud Computing course covering cloud architecture, deployment models, virtualization, cloud service models (IaaS, PaaS, SaaS)

SRM Paper Presentation

Successfully presented a paper on "An Integrated Platform for Land Rental and Agricultural Collaboration" at SRM Institute.
